<sup>1</sup> *Standards for Business Practices of Interstate Natural Gas Pipelines; Coordination of the Scheduling Processes of Interstate Natural Gas Pipelines and Public Utilities*, Order No. 587-Y, 165 FERC ¶ 61,109 (2018).

## **I. Statement of the Nature, the Reasons, and the Basis for Proposed Changes**

On November 15, 2018, the Commission issued Order No. 587-Y amending its regulations to incorporate by reference the latest version (Version 3.1) of certain business practice standards applicable to interstate natural gas pipelines and adopted by the Wholesale Gas Quadrant (“WGQ”) of the North American Energy Standards Board (“NAESB”). The NAESB WGQ Version 3.1 package of standards includes two substantive revisions to its Nominations Related Standards, one to establish a standard rounding process for elapsed-prorated-scheduled quantity calculations and a second to revise the specifications for the information to be included in a nomination request. Additionally, Version 3.1 contains three minor revisions to the WGQ Electronic Delivery Mechanism (“EDM”) Related Standards. The first change increases the allowable field length in ASCII Comma Separated Value Files to 3000 characters. Second, NAESB adopted new Standard 4.3.106 to allow checkboxes and radio buttons in the Transmission Service Providers’ Electronic Bulletin Boards. Third, NAESB modified its EDM standards to update the operating systems and web browsers that entities should support on behalf of users. The Version 3.1 package of standards includes changes to the NAESB WGQ data sets and other technical implementation documentation in the Flowing Gas, Imbalance Trade, and Capacity Release areas.

Order No. 587-Y requires each interstate natural gas pipeline to file tariff records to reflect the Version 3.1 standards by April 1, 2019, with an effective date of August 1, 2019.

## **II. Changes to Implement Version 3.1 Standards**

EGT proposes to incorporate by reference the new NAESB Version 3.1 Standard 1.3.82 on Sheet No. 794, and Standard 4.3.106 on Sheet 795, and the modifications to existing standards required by NAESB Version 3.1. EGT has made revisions to the language of Section 22.3, GT&C, Sheet No. 782, to conform to the language in the sample tariff record the Commission posted on its eLibrary website under Docket No. RM96-1-041 (Sheet Nos. 782, 792 and 793-795). Additionally, EGT has revised its Tariff to remove asterisks denoting Minor Corrections applicable to Version 3.0 of the NAESB WGQ Standards and otherwise conform to the language of the sample tariff record (Sheet Nos. 784-787 and 792-795).

## **III. Components of the Filing**

In accordance with 18 C.F.R. §§ 154.4(c) and 154.7(a), EGT submits herewith an eTariff XML filing package containing the transmittal letter and all components of the filing, filed as a zip (compressed) file, as listed below:

- Appendix A – A clean version of the records listed above
- Appendix B – A marked version of the records listed above

**IV. Communications**

EGT requests that all correspondence and communications concerning this filing be sent to each of the following persons, and that each be included on the Commission's official service list for this proceeding:

**V. General**

Pursuant to 18 C.F.R. § 154.7(a)(9) (2015), EGT respectfully requests that the Commission accept the tendered tariff records for filing and permit them to become effective on August 1, 2019, which the Commission has designated as the date upon which the standards adopted by Order No. 587-Y will take effect. With respect to any tariff record the Commission allows to go into effect without change, EGT hereby moves to place such tariff records into effect at the end of any applicable suspension period ordered. However, in the event that the Commission orders any change to a tariff record, EGT reserves the right to file a later motion to place the proposed tariff record into effect at the end of the suspension period. Additionally, EGT requests such further relief and waivers as appropriate to permit these changes to become effective as proposed herein.

In accordance with 18 C.F.R. §§ 385.2005 and 385.2011(c)(5) (2015), the undersigned states that she has read this filing and knows its contents and to her best knowledge and belief, the statements and information contained in the tariff records attached hereto are true and the electronic media accompanying this filing contains the same information as that available for public inspection.

**VI. Posting and Certification of Service**

Pursuant to 18 C.F.R. §§ 154.2(d), 154.7(b), and 154.208(b) (2015), a copy of this tariff filing is being sent by electronic mail to each of EGT's customers and interested State Commissions. This tariff filing is also available for public inspection during regular business

general pipeline, Tariff and news issues. Data relating to available capacity will be posted on the Internet Web Site, such as whether it is firm or interruptible, locations at which it is available, amount at each location, person to contact for further information or negotiation and applicable maximum rate. For offers to release and/or requests for releases, the notices and information required by Section 19 will be available on the Internet Web Site. The Internet Web Site will have interactive capability for the purposes of bidding on releases of capacity and posting releases of capacity. Offers to purchase released capacity may be communicated electronically.

22.2 Access. The Internet Web Site shall be available on a nondiscriminatory basis to all parties which have compatible equipment for communication provided that such party has executed any required access agreement evidencing its agreement to comply with the terms and conditions for access and use of Transporter's Internet Web Site and been assigned a user ID/password.

22.3 Compliance with 18 CFR, Section 284.12. Transporter has adopted the Business Practices and Electronic Communications Standards, NAESB WGQ Version 3.1, which are required by the Commission in 18 CFR Section 284.12(a), as indicated below. Standards without accompanying identification or notations are incorporated by reference. Standards that are not incorporated by reference are identified along with the tariff record in which they are located. Standards for which waivers or extensions of time have been granted are also identified.
