> Re: <u>Gulf Run Transmission, LLC</u> Docket No. RP25-____ Amended Negotiated Rate Agreement

Dear Ms. Reese:

Gulf Run Transmission, LLC ("Gulf Run") submits herewith for filing with the Federal Energy Regulatory Commission ("Commission") the following revised tariff record to its FERC NGA Gas Tariff, Original Volume No. 1 ("Tariff"), proposed to be effective on April 15, 2025.

<u>Version</u>	<u>Description</u>	<u>Title</u>
9.0.0	Negotiated Rates	Currently Effective Rates

STATEMENT OF NATURE, REASONS AND BASIS

The purpose of this filing is to submit to the Commission revisions to the previously accepted negotiated rate agreement, as amended, with Golden Pass LNG Terminal LLC ("Golden Pass"), Contract No. 20001, under Rate Schedule FTS.¹ Per the amendment, effective April 15, 2025, Gulf Run and Golden Pass have agreed to modify certain primary receipt points and their associated receipt entitlements as more fully described below.

First, within the Carthage Receipt Area, the amendment includes the following revisions: (i) the receipt entitlement at EMP Waskom Plant ST-21 (Meter No. 220040) is decreasing from 90,000 Dth/D to 40,000 Dth/D; (ii) the receipt entitlement at Gemini Panola (Meter No. 291010) is decreasing from 550,000 Dth/D to 250,000 Dth/D; (iii) the receipt entitlement at Enterprise Bulldog, formerly listed as Azure Midstream Energy, (Meter No. 822320) is increasing from 130,000 Dth/D to 430,000 Dth/D; and (iv) the receipt entitlement at ETC/HPL to GR (Meter No. 822000) is increasing from 0 Dth/D to 50,000 Dth/D. The Total Receipt Area Entitlement for the Carthage Receipt Area remains unchanged at 940,000 Dth/D.

Second, within the Haynesville West Receipt Area, the amendment includes the following revisions: (i) the receipt entitlement at TGG @ Desoto (Meter No. 220090) is decreasing from 100,000 Dth/D to 50,000 Dth/D; (ii) the receipt entitlement at State Line Gath/Momentu (Meter No. 822070) is decreasing from 100,000 Dth/D to 0 Dth/D; and (iii) the receipt entitlement at North Holly (Meter No. 293136) is increasing from 0 Dth/D to 150,000 Dth/D. The Total Receipt Area Entitlement for the Haynesville West Receipt Area remains unchanged at 940,000 Dth/D.

Third, Gulf Run is proposing administrative updates to several of the existing primary receipt points included on Contract No. 20001 whose names and/or meter numbers have been modified since

Gulf Run's initial filing in Docket No. RP24-330-000. Additionally, Gulf Run is including a notation that Contract No. 20001 is eligible for reservation credits as part of the negotiated terms. This notation was inadvertently omitted from Gulf Run's filing in the aforementioned docket.

IMPLEMENTATION AND WAIVER REQUEST

Pursuant to Section 154.7(a)(9) of the Commission's Regulations, Gulf Run requests that the proposed tariff record submitted herewith be accepted April 15, 2025, the effective date of the amended negotiated rate service agreement with Golden Pass. Gulf Run respectfully requests that the Commission grant waiver of Section 154.207 of the Commission's Regulations and any other waivers of its Regulations that it deems necessary to accept this filing and allow the proposed tariff record in this filing to become effective on April 15, 2025.

CONTENTS OF THE FILING

This filing is made in electronic format in compliance with Section 154.4 of the Commission's Regulations. In addition to the proposed tariff record in RTF format with metadata attached, the XML filing package contains:

- A transmittal letter in PDF format;
- A clean copy of the proposed tariff record in PDF format;
- A marked version of the proposed tariff changes in PDF format; and
- A copy of the complete filing in PDF format for publishing in eLibrary.

These negotiated rate agreements do not deviate in any material respect from the Form of Service Agreement in the Tariff.

0.35/Dth applicable to all quantities scheduled for delivery in excess of the contract MDQ (through segmentation or otherwise) at any delivery point other than Shipper's Primary Delivery Point

Most Favored Nations:

<u>Favored Nations Rate</u>: If at any time during the Term of the Agreement Transporter contracts at a negotiated or discounted rate with any firm shipper for capacity on Transporter's facilities which (i) originates at any of the Receipt Points on Line CP and (ii) extends to any Delivery Point south of the Westdale compressor station, for a primary term which is equal to or greater than three (3) years, then to the extent that such rate is lower than the Shipper's Negotiated Rates under the Agreement ("Shipper's Negotiated Rate") for shipments of its MDQ for firm capacity to a delivery point south of the Westdale compressor station (such rate, the "Lower Rate"), Transporter shall offer to reduce Shipper's Negotiated Rate to a rate equal to the Lower Rate (the "Favored Nations Rate") by written notice to Shipper within ten (10) days of executing any such contract, and Shipper shall inform Transporter whether it wishes to exercise such right within ten (10) days of its receipt of such notice from Transporter; provided, however, if Shipper does not provide Transporter any notice within such ten (10) day-period, Shipper shall be deemed to have exercised such right and accepted the Favored Nations Rate.

<u>Application of Favored Nations Rate</u>: The Favored Nations Rate shall only be effective for the same term and the MDQ as to which the Lower Rate is applicable,

if Shipper elects to receive service under the Agreement at such Favored Nations Rate. Transporter shall not be required to offer any Lower Rate to Shipper that (i) applies to any contract with Shipper or any of Shipper's subsidiaries; (ii) applies to any contract with power generators, industrial users (other than liquefied natural gas terminals), or local distribution companies for deliveries to their primary points on Transporter (not including any primary points at an interconnection point between Transporter and another pipeline); or (iii) results from the temporary assignment or release of firm capacity by Shipper that applies to a contract with a power generator, industrial user or local distribution company for delivery by Transporter to a primary point that is at an interconnection with another pipeline. For purposes of determining whether the rate offered to any firm shipper is a Lower Rate, Transporter shall compare on a 100% Load Factor Basis all of the reservation and commodity rates, charges, and surcharges that are applicable to such firm shipper with the same rate components of Shipper's Negotiated Rate. "100% Load Factor Basis" means the sum of the applicable daily rates, charges and surcharges; provided, however, if any rate, charge or surcharge applicable to either Shipper or such firm shipper is stated as a monthly reservation fee, the daily equivalent of such monthly reservation fee shall be determined by multiplying (A) the monthly reservation fee, times (B) twelve (12), and dividing the product by three-hundred and sixty-five (365).

Enhanced MDRO: If at any time during the Term of the Agreement Transporter contracts with any firm shipper for capacity on Transporter's facilities with an Enhanced MDRO, as defined in the Tariff, greater than or equal to 2.5 times the Shipper's MDQ, then Shipper's Daily Reservation Rate hereunder shall be reduced by \$0.0100/Dth.

<u>Reservation Charge Credit</u>: Shipper shall be eligible for any reservation credits required under Transporter's Tariff or order of the FERC.

These negotiated rate agreements do not deviate in any material respect from the Form of Service Agreement in the Tariff.

0.35/Dth applicable to all quantities scheduled for delivery in excess of the contract MDQ (through segmentation or otherwise) at any delivery point other than Shipper's Primary Delivery Point

Most Favored Nations:

<u>Favored Nations Rate</u>: If at any time during the Term of the Agreement Transporter contracts at a negotiated or discounted rate with any firm shipper for capacity on Transporter's facilities which (i) originates at any of the Receipt Points on Line CP and (ii) extends to any Delivery Point south of the Westdale compressor station, for a primary term which is equal to or greater than three (3) years, then to the extent that such rate is lower than the Shipper's Negotiated Rates under the Agreement ("Shipper's Negotiated Rate") for shipments of its MDQ for firm capacity to a delivery point south of the Westdale compressor station (such rate, the "Lower Rate"), Transporter shall offer to reduce Shipper's Negotiated Rate to a rate equal to the Lower Rate (the "Favored Nations Rate") by written notice to Shipper within ten (10) days of executing any such contract, and Shipper shall inform Transporter whether it wishes to exercise such right within ten (10) days of its receipt of such notice from Transporter; provided, however, if Shipper does not provide Transporter any notice within such ten (10) day-period, Shipper shall be deemed to have exercised such right and accepted the Favored Nations Rate.

<u>Application of Favored Nations Rate</u>: The Favored Nations Rate shall only be effective for the same term and the MDQ as to which the Lower Rate is applicable,

if Shipper elects to receive service under the Agreement at such Favored Nations Rate. Transporter shall not be required to offer any Lower Rate to Shipper that (i) applies to any contract with Shipper or any of Shipper's subsidiaries; (ii) applies to any contract with power generators, industrial users (other than liquefied natural gas terminals), or local distribution companies for deliveries to their primary points on Transporter (not including any primary points at an interconnection point between Transporter and another pipeline); or (iii) results from the temporary assignment or release of firm capacity by Shipper that applies to a contract with a power generator, industrial user or local distribution company for delivery by Transporter to a primary point that is at an interconnection with another pipeline. For purposes of determining whether the rate offered to any firm shipper is a Lower Rate, Transporter shall compare on a 100% Load Factor Basis all of the reservation and commodity rates, charges, and surcharges that are applicable to such firm shipper with the same rate components of Shipper's Negotiated Rate. "100% Load Factor Basis" means the sum of the applicable daily rates, charges and surcharges; provided, however, if any rate, charge or surcharge applicable to either Shipper or such firm shipper is stated as a monthly reservation fee, the daily equivalent of such monthly reservation fee shall be determined by multiplying (A) the monthly reservation fee, times (B) twelve (12), and dividing the product by three-hundred and sixty-five (365).

Enhanced MDRO: If at any time during the Term of the Agreement Transporter contracts with any firm shipper for capacity on Transporter's facilities with an Enhanced MDRO, as defined in the Tariff, greater than or equal to 2.5 times the Shipper's MDQ, then Shipper's Daily Reservation Rate hereunder shall be reduced by \$0.0100/Dth.

Reservation Charge Credit: Shipper shall be eligible for any reservation credits required under Transporter's Tariff or order of the FERC.
