Re: Enable Mississippi River Transmission, LLC
Docket No. RP23-
Negotiated Rates Filing

Dear Ms. Bose:

Enable Mississippi River Transmission, LLC ("MRT") hereby submits for filing with the Federal Energy Regulatory Commission ("Commission") the following revised tariff record to its FERC NGA Gas Tariff, Seventh Revised Volume No. 1 ("Tariff"), proposed to become effective on June 1, 2023:

<u>Version</u>	<u>Description</u>	<u>Title</u>
1.0.0	Negotiated Rates	Currently Effective Rates

STATEMENT OF NATURE, REASONS AND BASIS

The purpose of this filing is to submit to the Commission a summary of the negotiated rate agreement, Contract No. 6508, with WRB Refining, LP ("WRB Refining") under Rate Schedule FTS. Pursuant to General Terms and Conditions ("GT&C") Section 15.8 of MRT's Tariff, prior to the expiration of the term of any negotiated rate firm service agreement, MRT and firm capacity holder may mutually agree to renegotiate the terms of such service agreement in exchange for the customer's agreement to extend the term of at least a portion of its obligations under a restructured service agreement. Accordingly, MRT and WRB Refining have agreed to extend the term and shift all of the capacity previously committed under the service agreements listed below to the new service agreement, Contract No. 6508. Effective June 1, 2023, this service agreement, Contract No. 6508, supersedes and cancels the service agreements listed below with the capacity under each being consolidated herewith.

<u>Contract Number</u>	<u>Original Effective Date</u>	<u>Primary Term End Date</u>
324	October 1, 2005	March 31, 2024
5683	May 1, 2014	March 31, 2024
6264	April 1, 2022	March 31, 2024

As described in GT&C Section 19.2 of MRT's Tariff, each negotiated rate agreement shall be filed with the Commission or reflected on a tariff record to be filed no later than the business day of commencement of service (or if the day which MRT commences such service is not a business day, then the next business day after MRT commences such service). As such, effective June 1, 2023, MRT shall submit negotiated rate agreements on a tariff record in summary format which do not deviate in any material respect from those set forth in the Transportation Service Agreement Form in the Tariff. Negotiated rate agreements effective prior to June 1, 2023 are included in whole document format in MRT's FERC NGA Gas Tariff, Third Revised Volume Filed Agreements.

This tariff record is being submitted in compliance with the Commission's current policy on negotiated rates which permits pipelines to file notice of negotiated rate agreements that conform in all material respects with the *pro forma* service agreement contained in the pipeline's tariff by submitting a tariff record summarizing the negotiated rate. The proposed tariff record provides the requisite information concerning the agreement, including the name of the shipper, the negotiated rate, the term of the negotiated rate agreement, the type of service, the receipt and delivery points applicable to the service and the volume of gas to be transported. In addition, the Currently Effective Rates for Negotiated Rates contains a statement certifying that the agreement contains no deviation from the form of service agreement in MRT's Tariff that goes beyond filling the blank spaces or that affects the substantive rights of the parties in any way.

REQUEST FOR WAIVERS

Pursuant to Section 154.7(a)(9) of the Commission's Regulations, MRT requests that the proposed tariff record submitted herewith be accepted effective June 1, 2023. MRT respectfully requests that the Commission grant waiver of Section 154.207 of the Commission's Regulations and any other waivers of its Regulations that it deems necessary to allow the proposed tariff record in this filing to become effective on June 1, 2023.

CONTENTS OF THE FILING

This filing is made in electronic format in compliance with Section 154.4 of the Commission's Regulations. In addition to the proposed tariff record in RTF form with metadata attached, the XML filing package contains:

- A transmittal letter in PDF format.
- A clean copy of the proposed tariff record in PDF format.
- A marked version of the proposed tariff changed in PDF format.
- A copy of the complete filing in PDF format for publishing in eLibrary.
