EGT Estimated Available Capacity (DTH)

Based on current conditions, EGT estimates that the following incremental firm and/or interruptible capacity may be available for the gas day(s) specified above.

However, conditions are likely to change, resulting in less or more of such capacity actually being available. In the event that, prior to the applicable nomination deadline, EGT becomes aware that significantly more

capacity may be available for the time period specified above, EGT will revise this posting. The actual amount of capacity available at any point will depend on the exact location of the receipt and delivery points nominated by the requesting shipper, as well as current system-wide operations and receipts and deliveries at other locations.

Table with columns: Delivery Segment, Delivery Pooling Area, Available Delivery Capacity, Possible Receipt Points, Possible Delivery Points. Rows include AD West, Line AC Delivery, Quad Line OM-1 Delivery, Quad Line J & JM-1 Delivery, Quad BT-1 Delivery, Perryville Delivery, and Perryville Hub Trading Point.

For points not shown above and/or other transportation requests, please contact your EGT Marketing representative.

Please see "Operationally Available Receipt/Delivery" and "Unsubscribed Receipt/Delivery" information on EGT's EBB for more information regarding these points and other points not listed above.

Perryville Hub* firm wheeling services may also be available between hub points. Please contact your Marketing Representative.
