1. No capacity impact is expected at this time.										
2. Coordinating with necessary loads.										
3. Based on historical and current throughput, no capacity impact is expected. In the event nominations increase significantly, restrictions may become necessary.										
4. Coordinating maintenance with interconnecting pipe to minimize customer impact. No capacity impact is expected at this time; however, if operating conditions change, affected parties will be notified.										
5. Affected production notified of shut-in during work.										
6. Customers may experience pressure fluctuations, but no capacity impact is anticipated.										
7. Based upon customer nominations, restrictions may become necessary.										
8. Based on all available information, capacity will be impacted. Capacity reductions will be done in accordance with the provisions of EGT's tariff regarding scheduling and interruption of services.
