Based on current conditions, EMRT estimates that the following capacity may be available for the gas day(s) specified above. However, conditions are likely to change, resulting in less or more of such capacity actually being available. In the event that, prior to the applicable nomination deadline, EMRT becomes aware that significantly more or less capacity may be available, EMRT will revise this posting.

| Estimated Interruptible | | | |
|-------------------------|--------------------------------|--------------------|--|
| Area | Delivery Point | Available Capacity | |

Shippers interested in System Management gas purchases or sales please contact Amy Morris at 405.553.6474 or email Amy.Morris@EnableMidstream.com

*Customers and potential customers should note that requests for interruptible service may begin to be awarded as soon as this report is posted on EMRT's web site and awards may continue as long as capacity is available. In order to maximize system utilization, EMRT cannot establish a fixed time or deadline by which it will award requests for next gas day, short-term, interruptible service. Instead, EMRT uses the best information available to it each day regarding market conditions to determine the time at which it should award next day capacity.

*For points not shown above and/or other transportation requests, please contact your EMRT Marketing Representative.
