

This Operational Alert is being issued pursuant to Section 20, GT&C, of EGT's Tariff to notify shippers of maintenance at EGT's Perryville Compressor Station located in Ouachita Parish, Louisiana and in EGT's South Pooling Area.

The maintenance will take place on **June 8th, 2026 to June 23rd, 2026 at 09:00**. During this time:

- Deliveries through Perryville Compressor will be limited to 550,000 dth.
- Based on current nominations, EGT anticipates that primary firm services nominated through Perryville Compressor Station will be scheduled to approximately **85-90%** of MDO quantities during the outage.

Unforeseen issues, including, but not limited to, nominations, weather conditions, storage needs, etc., may result in further than anticipated scheduling reductions. In the event that unforeseen issues do occur, EGT will evaluate nominations, on a case by case basis, based on daily operations to alleviate impacts to the extent possible. During this planned maintenance, shippers should nominate to their contractual MDO location to reduce the risk of scheduling reductions. Should any of the details of this posting change, EGT will notify its shippers and update this notice accordingly.

EGT will schedule nominations, if needed, on each impacted day in accordance with its tariff. This alert will remain in effect until the completion of the maintenance.

If you have any questions concerning this alert, please contact your Scheduling Representative.
