Previous Information Posted July 15th, 2022

The new estimated completion date for the maintenance being performed at Vernon Compressor Station is September 30th, 2022.

All other details of the maintenance remain the same. Should any of the details of this posting change, EGT will notify its shippers and update this notice accordingly.

Previous Information Posted May 11th, 2022

This Operational Alert is being issued pursuant to Section 20, GT&C, of EGT's Tariff to notify shippers of planned maintenance on its Vernon Compressor Station located on EGT's Line CP. This maintenance will begin **June 1, 2022** with an anticipated completion date of **August 31, 2022**.

Based on current nominations, EGT does not expect impacts to shippers using their Primary Firm Receipts and their Primary Firm Deliveries.

- Firm shippers attempting to utilize Secondary Receipts may be impacted depending on location.
- Secondary Deliveries nominated to Columbia Gulf (CGT CP DEL #13548) will not be scheduled.

During the planned maintenance, shippers will need to nominate from their contractual MRO location to their contractual MDO location to maintain the highest priority.

Point operators located in the impacted area may experience higher pressures.

EGT will schedule nominations on each impacted day in accordance with its tariff. Should any of the details of this posting change, EGT will notify its shippers and update this notice accordingly.

This alert will remain in effect until further notice. If you have any questions concerning this alert, please contact your Customer Solutions Representative.
