

New Information Posted 12/10/2024

The estimated completion date for the unplanned maintenance at West Point Compressor Station is Friday, December 13th, 2024.

MRT will post the FMJ termination notice upon official completion of the work.

Previous Information Posted 12/09/2024

This System Protection Warning shall constitute notice of a Force Majeure under Section 12.2, GT&C, of MRT's Tariff and is being issued to notify all parties of unplanned maintenance at MRT's West Point Compressor Station, located in White County, Arkansas. During this unplanned maintenance, MRT will be limited in its south to north capacity through West Point.

MRT is not anticipating impacts to firm shippers except during times of high utilization. If MRT posts a High Utilization SPW while the unplanned maintenance at West Point is in progress, shippers contracted with Primary Receipts, including Firm Storage receipts, south of West Point and Primary Deliveries North of West Point must either reduce deliveries by 12 percent, or secure 12 percent more flowing supply from receipt points north of the West Point Compressor Station.

Shippers who do not have Firm path rights through West Point may not be scheduled.

Receipt Points North of West Point

- **TGT Boardwalk (MP# 90722)**
- **Noark to MRT Lawr (MP# 805548)**
- **Trunkline Clay Co (MP# 12817)**
- **NGPL @ Shattuc (MP# 805588)**
- **NGPL Madison Co (MP# 92136)**
- **STL Chain of Rocks (MP# 100007)**
- **Mo Gas Pipeline (MP# 91031)**

This notice will remain effective until further notice. MRT will provide more details on the timeline of the unplanned maintenance once the information is obtained from Field Operations. If you have any questions concerning this alert, please contact your Scheduling Representative.
