

This Operational Alert is being issued pursuant to Section 20, GT&C, of EGT's Tariff to notify shippers of upcoming maintenance at the Vernon Compressor Station on Line CP on Tuesday, October 11th, 2022, and Wednesday, October 12th, 2022.

In order to maximize throughput and alleviate impacts, EGT will need to take the following scheduling actions:

- Schedule throughput through Panola Compressor Station to ensure throughput is not less than 550,000dth.
- Schedule throughput through Vernon Compressor Station to no more than 1.5 BCF.

Based on current nominations, EGT anticipates impacts to its services. During this maintenance, shippers should nominate from their contractual MRO location on their Firm Agreement to reduce risk of scheduling reductions. Should any of the details of this posting change, EGT will notify its shippers and update this notice accordingly.

Point operators located in the impacted area may experience higher pressures.

EGT will schedule nominations on each impacted day in accordance with its Tariff. This alert will remain in effect until further notice.

If you have any questions concerning this alert, please contact your Customer Solutions Representative.
